To Whom It May Concern:

I have had the distinct pleasure of working with Mahla Shapiro student teacher at the Multicultural Fair Event of March 13, 2013 at Kitsilano Secondary in Vancouver. This event was organized for our students & staff community of 1,400. Mahla supervised and worked at making different flags from various nations and also participate at the event by cooking delicious bread from her own culture and nation Israel. She help student's volunteer from different grade level 8-12 at doing specific tasks under pressure.

Mahla demonstrated flexibility and adaptability to few changes made at last minute. Her work was particularly well done with precision. Mahla is a reliable, responsible student teacher. She made herself available to do extra tasks required and related to this Multicultural Fair. She works well under pressure and supervision. She suggested ideas that enrich the event. I would like to wish her all the best success through her journey in Education field .

Best regards,

Manon Desjarlais

Community School Team Teacher
