Dear Ms. Ainein,

I am excited to read about the Software Development Engineer Intern position at A Thinking Ape, as advertised on the A Thinking Ape website. Currently a Bachelor of Computer Science student at the University of British Columbia, I always carried a passion for game development. With my passion and experience that fits the traits you are looking for, I believe I can make a valuable contribution to your team.

Through my leadership experience at Fido Solutions as a key holder, I have developed strong communication skills by debriefing the team on daily promotions and policy changes and regularly collaborating with other colleagues to resolve customer service issues. My managers recognize my keen motivation to learn and my strong accountability for my work. As a result, I was promoted to key holder status at Fido within three months of hire and to shift supervisor status at Starbucks within one month of hire. I am confident that if I encounter any unfamiliar concepts as an intern at A Thinking Ape, I will be able to quickly learn and adapt to the work environment.

I enjoy challenging myself through self-learning of different programming languages and working on projects that are beyond my comfort. My ultimate goal in pursuing a computer science career is to be able to create apps that improves and brings happiness to peoples' lives, so I am excited to be a part of the A Thinking Ape team to realize our shared goal.

I would like the opportunity to meet with you to further share how I will be a great fit for A Thinking Ape as a Software Development Engineer Intern. I can be reached anytime via cell (604 712 1234) or by email at nataliehyn22@gmail.com. Thank you for your time and consideration.

Sincerely,

Natalie Ngan
