

We are all in this together!

Is it becoming harder to raise a family?

Please join us for an important conversation about the health of families in the Waterloo Region and Canada.

The YMCAs of Cambridge & Kitchener-Waterloo have been working to build healthy communities for over 150 years. Because of this history, the Y is uniquely positioned to host an important dialogue that explores the issues impacting the ability of families to thrive.

Please join us to hear Dr. Kershaw's findings on the challenges faced by families today. A dialogue will follow providing an opportunity to share your perspectives on this important topic.

Space is limited. Please RSVP by March 9, 2012

Please RSVP at <http://www.zoomerang.com/Survey/WEB22ET8RJL2S6>.

Complimentary on site child minding is available.

Guest Speaker

Dr. Paul Kershaw, from the Human Learning Partnership at University of British Columbia will present his research on the

health of families, "Does Canada work for all generations?"

Tuesday, March 13, 2012
