Recruit Representative  
Mountain Vacation Rentals  
#210-73 East 6th Ave  
Vancouver BC V5T 1J3

Dear Recruit Representative:

Re: Application to Intermediate Full Stack Web Developer

After reading about how Mountain Vacation Rentals' innovative online booking system is giving customer the convenience to reserve for skiing or snowboarding equipment, I am excited to have the opportunity to join the thriving success Mountain Vacation Rental has seen over the past few years. I believe that my adaptability and personal website development experience would help me quickly join the team and contribute to the coordination with developers.

On the path of acquiring HTML and CSS as my technical skills, I have learned how to develop my personal website with interesting colours, organizations, as well as small animations. I believe my experience with developing my personal website would help in assisting web development team to create a user-friendly environment for customers to have the best experience with Mountain Vacation Rental.

I believe that I have developed great communication skills in both verbal and written forms. My previous experience at a travel agency improved my communication skills. Communicating well with customers was always needed to find suitable deals and vacation packages for customers. Negotiation with wholesalers was also needed to obtain lower priced plane tickets to sell to customers.

I am very interested in the Web Developer position and it would be great to have the opportunity to contribute my technical and communication skills to Mountain Vacation Rentals. Thank you for taking time to consider my application and I look forward to hearing from you.

Best regards,

Noelle Hsieh
