

School Improvement in the South Slave

2012 Survey Responses

LK - Parent Comments

Please comment on what you are pleased about the school that you want to see continued.

Is there anything you would like to see improved at the school?

good reading and writing skills and good math skills, and whatever the teachers are doing to keep on doing what they're doing

more interaction from the teacher in community activities and big community gatherings

the reading program

an evening reading group or during the day

attitude, kindness and generosity, doing a very good job with the students, keep it up

well done, love the way Ms. Myles

keep it up

I am very pleased with the reading and mathematics, computer skills, keep up the good work

more prizes, lol

reading skills are improving big time

bullying, too many older kids picking on younger kids, my child does not feel safe in school at times, lots of bullying going on at recess time

breakfast program, Dene Yati program

more extra curricular activities and sports after school

more reading-fun activities

question #5 - my child is treated fairly by her classroom teacher, however I believe that other teachers hold her to a different standard, I am pleased with the instruction that my child has received to date and truly believe that my child has received the best possible education, the primary teachers here are truly wonderful and could not be topped by any teacher anywhere

more focus on writing and math

Please comment on what you are pleased about the school that you want to see continued.

the school administration (teachers and staff) should see themselves, as well as demonstrate, that they are community leaders, school administration should continue to make parent relations and community relations a cornerstone to school success, the DEA should build upon their work on the CEP and providing examples to improving child attendance and accountability to seeing projects and studying continuity through... ownership of the school by the community is key, staff should always mirror that in their words and action with parents and students

on the land program

it's all good

Is there anything you would like to see improved at the school?

a sustained effort at combating the most difficult issues to student success, new "problem solving" at top levels to help teachers combat negative patterns of behaviour in reaction to difficult students or poor parental support of the school, this would not completely remedy burnout or sarcasm but could provide teachers with new tools for improving community relations and find, continually, new ways to bridge parents and community positively into the school

great job, keep it up, Marci cho

keep it up
