

LAB_05: Thursday, October 10
Final Draft of Research Project Materials
Due beginning of class Tuesday, October 15

(Refer to the Lab Guide – Research Manual: Lab #5 and to the Lab Guide – LAB Assignment Examples
AND to the feedback you received on your LAB_04 assignment.)

TEAM #: _____

Members Present:

Members Not Present:

The cover page follows.

Start your materials on the page AFTER the cover page. This document needs to contain your cover story/vignette, your research questions for your DVs with response scales. You have ONE page to present this to participants. You can use two pages though for each level/condition of the IV – the only difference between the pages should be the manipulation of the IV will be different on each page. This is the FINAL copy of your research project materials that participants will complete. TRIPLE CHECK THIS.

Formatting Requirements:

- In the top right-hand corner of EVERY page list your Team #.
- In the bottom right-hand corner of EVERY page (except the cover page) list the condition as A or B (or C or D if you have designed a 2x2 study with 2 IVs have 2 levels/conditions each).
- Keep this as ONE document with this page, then the cover page, then your materials.
- Use the PAGE BREAK function to separate pages. DO NOT just add blank paragraphs to separate pages.
- SAVE THIS AS A .PDF to upload to preserve your formatting.
- Upload a copy before class on Tuesday, and print-out and hand-in a paper copy to your professor or graduate co-instructor at the beginning of class on Tuesday.
