

LAB_09 - Part I: Thursday, November 7 Entering/Analyzing Your Data and Interpreting Your Results

(Refer to the Lab Guide – Research Manual: Lab #9 and to the Lab Guide – LAB Assignment Examples AND to the spreadsheet and feedback you for your LAB_07 assignment.)

Today you will enter the data from your participant responses using the spreadsheet you created in your LAB_07 assignment. Your participant sheets will be returned to you at the beginning of class.

You will be uploading the completed spreadsheet with all of your participant responses entered.

Because you will be uploading a spreadsheet file and not a text document for this assignment, please indicate which team members were present and which team members were absent in the comments section when you upload your file.

Save your file as an .ods or .xls file as per the template for uploading.

THIS IS YOUR DATA.

Your results depend on you entering the data correctly.

TRIPLE CHECK YOUR WORK.

IMPORTANT

You will also complete a paper copy of your analyses. **LAB_09 - Part II also due today.** This will be handed out to you in class.
