ACADEMICS

French Training Session (FTS)

An intensive French language course is offered to international students during 4 weeks in September and is free of charge. Students will take 3 hours of French lessons each day, Monday through Friday, and participate in cultural activities.

N.B.: This session is offered in the Fall term only, however, students coming on exchange at another period of the year will be able to take a regular French course during each term.

Course offer

The ESSEC MiM program offers over 200 business courses over the year, as well as foreign language courses. To consult the course catalog, students can ask their local study-abroad coordinator. Students from MBA programs and coming to ESSEC in the Fall term (September to December) can attend courses from the ESSEC Global MBA (the list of courses will be provided to students in due time).

Course restrictions

The following courses are not open to exchange students:

- The following ESSEC core courses: Management Control, Financial Accounting and Reporting, Principles of Finance;
- Financial Statement Analysis;
- Big Data Analytics;
- Courses from some Chairs reserved to students admitted into the Chair (mention "reserved" indicated on the course offer).

Courses in specialized fields

Exchange students have the opportunity to take courses that draw on ESSEC's specific fields of expertise. This includes courses in Luxury Brand Management, Hospitality Management, Entrepreneurship, Agri-Food Industry, Health, etc. Students usually receive the timetable about 2 months before the beginning of each term. Courses are taught in French and in English (50/50). Please note that it is not required to speak French to come to ESSEC as students can take all their courses in English.

Course load & credits

Students can take a maximum of 5 courses per term (5 business courses or 4 business courses + 1 language course). There is no minimum course load required.

	1 Business course	1 Language course
Contact Hours	25 (2.5 hours a week during 10 weeks)	30 (3 hours a week during 10 weeks)
ECTS Credits (European credits)	5	4

Course registration process

Students register themselves in courses on an online platform about 2 months before the start of each term. They have up to 5 days to make all the changes they want. Once registration is over, **no more changes (or dropping) are allowed.**

Important: Although exchange students have priority in courses as they register before full-time students, courses get full pretty quickly (especially the popular ones such as luxury courses) so students should not wait the last day to connect and register if they wish to secure a spot in all the courses they want to attend (first come, first served basis).

Examination

For courses with a final exam, it will take place on the very last week of the term. Some courses do not have a final exam but assignments, presentations and/or projects (individual or in groups) throughout the term. **There are no re-sits or make-up exams.**

Grading & conversion

Grades range from 0 to 20. Students need to obtain at least a grade of 10 to pass a course.

ESSEC Grades	Definition	ECTS Grades
16-20	Excellent	A
14-15	Very Good	B
13	Good	C
11-12	Satisfactory	D
10	Pass	E
0-9	Fail	F

Final transcripts will be sent directly to the international relations office of the students' home university as soon as they are complete (about 1 month after the end of the exchange).
