

# In 2022, The University of British Columbia invested a total of **CAD\$66,701,683** in firms that are active agents in 1 the illegal settlement enterprise in the ongoing genocide of Palestinians in Gaza.

The following tables, ordered by industry, display information about these companies. This includes their name, the specific role they play in maintaining the occupation and/or participating in the genocide, and the amount of UBC endowment money they receive.

The data presented in this report were obtained from the 2022 UBC Investment Management Trust's (IMANT) "Holdings Disclosure Report." To determine which of these companies were invested in by UBC, the report was cross-referenced with a 2020 United Nations Human Rights Council database of business enterprises that build, maintain, and legitimize illegal Israeli settlements in the West Bank. The list also includes firms widely understood to be complicit in violations of Palestinian human rights—the numerous weapons manufacturing companies that UBC invests in, which supply arms to the Israeli military, are included in this latter section.

As UBC lists the endowment holdings in percentages, the dollar amount was estimated by using overall values for the endowment, although the dates of the holdings disclosure report do not fully match up with the reporting date of the endowment fund value. The value of the endowment fund was reported to be \$2.09 billion on March 31st, 2023 while the holdings disclosure was reported on December 31st, 2022. It should still be a decent estimate for 2023 assuming each fund grew somewhat evenly over the three months. For comparison, the value of the fund on March 31st, 2022 was \$2.06 billion.

Company	Estimated Investment	Role
<b>Airbus SE</b>	<b>\$5,970,209</b> (0.29%)	Airbus Group is one of the two largest aerospace companies in the world alongside Boeing, and it enjoys a close working relation with the Israeli aerospace industries. In 2016, Airbus signed a \$600 million deal with Israel's defense ministry for the provision of 1700 Eurofighter Typhoon fighter jets. In 2018, Airbus signed a \$600 million deal for the supply of the Eurofighter Typhoon fighter jets. In 2019, Airbus signed a \$600 million deal for the supply of the Eurofighter Typhoon fighter jets.
<b>Safran SA</b>	<b>\$2,462,488</b> (0.12%)	Safran is a French multinational aerospace and defense company. It has provided equipment for Israeli military aircraft, including the Eurofighter Typhoon fighter jet. Safran is also a major supplier of engines for the Eurofighter Typhoon fighter jet.
<b>Lockheed Martin Corp</b>	<b>\$903,408</b> (0.04%)	For over 50 years, Lockheed Martin has supplied the Israeli defense industry with weapons used to measure performance, including the Iron Dome missile defense system.
