## **Connecting Windows Live Writer XP to Blogs**

When you first open Windows Live Write, you will start this wizard that will help you/students connect to a blog.

🕹 Windows Live Writer	×
Configure Windows Live Writer	
Use Windows Live Writer to blog about whatever interests you. Add photos and videos, and then publish to popular blogging services, including Windows Live Spaces, Blogger, WordPress, and TypePad.	
Learn more about Windows Live Writer	
< Back Next > Cancel	

You need to go to the teacher blog site to copy the URL of blog so you can paste it in this box:

🕹 Windows Live Writer		×
Add a blog accoun	ıt	
Chana Daint blan LIDL.		
SharePoint blog UKL:		
<u> </u>		
Set proxy	< Back Next >	Cancel

## Right-click on blog name and click on "Copy Shortcut":

046-nata	046-natalied		
046-nikk	046-nikkom		
046-noal	046-noabh		
046-SEA	Open		
046 605	Open in New Tab		
040-SHE	Open in New Window		
046-sum	Print Target		
046-thor			
046-tyle	Cut		
046-7vai	Copy Copy Shortcut		Ξ
	Paste		
kporter			
	Blog with Windows Live		
	at Translate with Live Search		
	All Accelerators		
	Add to Favorites		
	Add to Google Photos Screensaver		
	Properties		~
		A 10002 -	

## Paste the shortcut in the box:

۷ مالی	/indows Live Writer		×
A st h	dd a blog account arePoint blog URL: ttp://my43.sd43.bc.ca/class/kp	orter/blogs/046-noahb	
S	st proxy	< Back Next > Cancel	

Create a	Temporary Post 🛛 🔀
?	Would you like to allow Writer to detect the theme of your blog by publishing a temporary post? The post will be removed immediately. Allowing this will let you see what your posts will look like online while you are editing.
	Windows Live Writer
	Your blog has been set up
	Please confirm that you would like to save this blog. Writer will periodically check for, and download, new configuration information for your blog.
	Blog nickname: 046-noahb
	Share my blog on Windows Live Show updates on Windows Live so people know when I add new posts to my blog.
	< Back Finish Cancel

## Window Live Writer is now connected to that blog:
