To Whom It May Concern,

I have found your advertisement. I believe that I am suitable for the Assistant Manager position because I have gained understanding of the professional accounting field throughout my public practice work experience and education from university.

I began to realize the sheer importance of the industry as a global entity, and how the efficient flow of goods through customs and various transportation outlets make modern living a reality. Following my graduation in Korea, I decided to continue learning about this highly dynamic industry by moving to Canada. Enrolling in the School of International Business at Seneca College was my gateway into the Canadian Customs, and Freight Forwarding industry. Aside from learning an extensive amount of Canadian and international trade practices, I realized that I truly enjoy the multicultural and dynamic society of Canada

Finally, I am bilingual in Korean and English so I can offer superb written and communication skills. I am also strong at Microsoft package and Quickbooks. I am a fast learner who understands program's principle.

I look forward to speaking with you further about this opportunity, and would like provide any additional information you may require. Please feel free to contact me through E-Mail.

Thank you for your consideration.

Sincerely,

Seungjae Cheon
