

# Tri-Council Agencies' Funding Across Canadian Provinces

For the Michael Smith Foundation for Health Research

Displayed is the distribution of Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), and Social Sciences and Humanities Research Council (SSHRC) funding by capita and within each province. Because the Northwest Territories, Nunavut, and Yukon are not taken into consideration on this map, only 96% of the complete funding provided by the Tri-Council is shown.

Projection: Canada Albers Equal Area Conic  
 Sources: Canadian Research Information System (CIHR), NSERC's Awards Database, SSHRC Awards Search Engine, Statistics Canada: Population and Demography, Michael Smith Foundation for Health Research, UBC Geography
