

Golden Record Curation

A comparison

Diversity

Both Gary R. and I speak of the importance to choose representations that are diverse. The fact that we only had 4 songs of our 10 connect shows the diverse collections that can be included and other human perspective.

Words & Music

We both wanted words and music to be included in this collection to support not only diversity but for interpretation.

Joy

Gary speaks of joy and playfulness with his inclusion of Johnny B. Goode. I connect joy and playfulness to the whole collection to showcase the positives hear on earth. Further consideration, I don't think I showed our full truth, leaving out the reality of the sadness that can come about in our world.

Main Difference

- Spiritual component in Gary's while I speak to diversity, he includes perspective on religious/spiritual impact.

Wonder

- If we did this task again in a year, would our list change? If so, why? If not, why?
