

BYOD (Bring Your Own Device) In the Primary School

Please view the presentation with your child

At LIS, technology allows students to:

Prioritise visual learning

photograph teacher explanations, represent understanding

To be mobile

inside and outside the classroom, continue or reflect on learning at home

Promote creativity

students can express themselves in their preferred learning style

Learn through trial and error

experiment with and alter work

Constantly connect and collaborate

shared documents, group tasks, real world access

Teachers view technology as a tool that allows each student to reach their full potential and be active participants in their learning and development.

Balance

The goal with using technology in education is not simply to use technology to reproduce things we COULD already do without it, but to find entirely new ways to do things that we COULD NOT do without it.

Chris Betcher

Key computing skills:

- Understand copyright, eSafety and the responsibilities of digital citizenship.
- Locate, generate and access information.
- Edit and manipulate text, images, audio and video for presentations.
- Select and use appropriate ICT tools to share and exchange information and collaborate with others.
- Manage data on different storage mediums.

BYOD at school

Permitted Electronic Communication Devices such as I pads / Chromebooks. Devices that are primarily aimed at gaming or are primarily a music player are not allowed. Similarly, devices that just permit the making of phone calls and sending texts are also not allowed. Phase Leaders or the Head of Primary will make the final decision whether any such device is permitted. .

BYOD at school

Educational use - Devices will only be used for educational purposes to support learning whilst in school. It will be at the teacher's discretion as to when these devices may be used by a student within school. Students will respect a teacher's decision and turn off their device when requested to do so. Any device used for any other purpose will be removed at teachers discretion.

BYOD at school

Lost, stolen or damaged - Students who bring devices into school do so entirely at their own risk, just like any other personal item. LIS Chengdu will not accept any responsibility for devices that are misplaced, lost, stolen or damaged.

Many devices have a location finder app and it is recommended that this feature is enabled to aid tracking where ever possible.

It is also recommended that such devices are fully insured to cover loss and damage outside of the home. LIS Chengdu including children, teachers and family members will not be liable to pay insurance excess on broken, damaged or lost devices.

BYOD at school

Security and Care - Students are responsible for the proper care and use of their own device. Students are responsible for the security of their own device whilst in school. It is recommended that students do not share or lend their device to other pupils.

Devices need to be charged at home and be stored in a Device case, in order to limit chances of damage.

BYOD at school

Audio, Photographs and Video - Students will not use their device to record audio or take photographs or video of other students or members of staff without their permission. Students will not transmit or upload such media without permission.

Students breaching the BYOD Policy - If a student breaches the BYOD Policy or if a member of staff feels that they are likely to have breached this policy then the student's device will be confiscated and held in the primary office. The student's parent will be contacted and they will need to come into school to collect the device. Subsequent breaches of this policy by the same student will result with that student no longer permitted to bring in their own device.

LIS Learning Management System

Microsoft TEAMS- a way to connect, share content, access home learning, participate in discussions, manage assignments and receive class information

Students access this with their school email and password

Nord Anglia Portal Link

This is where all the learning platforms can be accessed with single sign on, including student email.

This is access using student school email and password.

BYOD at home

When the device is at home, its use is at the discretion of the family. Some tips to support use at home are:

- Designate specific areas in the home for use of technology tools to assist with supervision,
- Keep the device charger plugged into the wall in a main room,
- Set time limits for device use,
- It is only required for Home Learning requirements as per the school policy,
- No screen time in the hour before bed, set night shift
- Set restrictions, such as guided access, if a problem continues.

Do not give children their own Apple ID

- Children under 13 are not allowed their own Apple ID

Do not create an Apple ID on behalf of your child then give them the password

- You have no control over use, including purchases and downloads

Family Sharing

Options

Your child is added as a Family Member to your account (verified parental consent)

Ask to Buy - all purchases (paid or free) are approved by you

Apple

You can limit access to content using 'Restrictions'

Health and Safety while using devices

Ear health:

- use volume restricted headphones, avoid high level volumes
- use over the ear headphones

Keeping a device safe:

- do not leave your device on the floor
- if walking, the screen must be covered and two hands on the device
- do not take it out of the case

Movement

- regular, adjust the body position every 15 minutes
- maintain the shape of your spine, natural curves

Eye health

- blink and look away from the screen regularly, at least every 20 minutes
- your screen should be at eye level
- adjust the screen brightness
