

Self Assessment

Think about the learning activities that the class has been completing relating to coin counting and exchange. Take time to think about yourself during these learning activities and how your understanding has grown and changed before starting to respond to the questions below. Mark with a check mark the column that best represents your response for each question.

| | Very  | Somewhat  | Not at All  |
|---|---|---|---|
| How confident do you feel now in counting a collection of coins including nickels, dimes, quarters and loonies? | | | |
| How confident were you in counting coins prior to the Coin Box simulation? | | | |
| How confident were you in counting coins after the Coin Box simulation? | | | |
| How confident were you in making change up to a dollar prior to the Coin Box simulation? | | | |
| How confident were you in making change up to a dollar after using the Coin Box simulation? | | | |
| How confident were you in making change for buyers at our cookie sale? | | | |
| Did you feel that you have more confidence now than you had before the bake sale in making change? | | | |
| On the back of this page, describe a time during these recent coin/money activities that you feel was significant in helping you grow in your learning of coin counting and exchange. Be specific and explain why this time was significant to you. | | | |
