Your task?

Write 3 descriptive sentences – Make sure you overview the article/chapter (i.e. Linderoth argues aabbcc that xyyzz)

Write 2 analytical sentences (i.e. Burwell & Miller focus on eeffgg, however, they assume lmmnn). The point here is to analyze and not describe.

Write 1 burning question (i.e. Linderoth deploys a ecological psychological approach to learning from games, what is the role of affordances in his model and in relation to games?)
