

Sustainable Research Showcase

CHBE

CERC

The **Chemical and Biological Engineering Sustainability Club** will be hosting an open house to demonstrate the environmentally beneficial research that is ongoing in the Department of Chemical and Biological Engineering (CHBE) and the Clean Energy Research Center (CERC).

When: Wednesday January 28th

Where: Main Atrium of Chemical and Biological Engineering Building (2360 East Mall)

Special Guest Lecturer

Dr. David Keith of the University of Calgary will be giving a seminar entitled “Capturing CO₂ from Thin Air at an Industrial Scale”

Professor David Keith works at the interface of climate science, energy technology and public policy.

Dr. Keith has addressed technical audiences with articles in *Science* and *Nature* and has appeared on the popular *TED Salon Talks*.

Sustainability at UBC

David Woodson from UBC Utilities will be giving a talk on alternative energy projects at UBC
