Richmond, BC V7C 5V2

Dear Dr. Wolfman,

Re: Request for Reference Letter

As you are aware, I am in the process of applying for Master of Biotechnology at the University of Toronto in Ontario, Canada. I will be graduating from the University of British Columbia in May of 2016 with a degree in Biology and strongly believe that this program would perfectly complement my area of expertise. As my mentor for the past five years at the Terra Nova Dental Center, I was hoping you would be able to write a reference letter describing our professional relationship.

I am forever grateful to be given the opportunity to work with you at your dental clinic. All of the professional and social skills that you have taught me over the years will undoubtedly help me succeed in the future. You have always believed in me and my confidence grew as a result of your support and supervision.

I would greatly appreciate the time taken for you to describe our professional relationship. More information about the program can be found at:

Dear Dr. Wright,

Re: Request for Reference Letter

As you are aware, I am in the process of applying for Master of Biotechnology at the University of Toronto in Ontario, Canada. I will be graduating from the University of British Columbia in May of 2016 with a degree in Biology and strongly believe that this program would perfectly complement my area of expertise. As my mentor for the past three years at the Tacoma Radiation Oncology Center, I was hoping you would be able to write a reference letter describing our professional relationship.

I am forever grateful to be given the opportunity to volunteer at your radiation oncology center. My time volunteering at your hospital has been both very rewarding and gratifying. You have always taught me to make a difference, no matter how small of a contribution it may be. Most importantly, you have given me an opportunity to give back to the society.

I would greatly appreciate the time taken for you to describe our professional relationship. More information about the program can be found at: <https://www.utm.utoronto.ca/mbiotech/prospective-students/why-mbiotech>. Should you have any questions, please do not hesitate to contact me at (604) 728 8315 after 6:00p.m. daily or email me at gohtim@gmail.com. Thank you for your support.

Sincerely,

Dear Dr. Lacombe,

Re: Request for Reference Letter

As you are aware, I am in the process of applying for Master of Biotechnology at the University of Toronto in Ontario, Canada. I will be graduating from the University of British Columbia in May of 2016 with a degree in Biology and strongly believe that this program would perfectly complement my area of expertise. As my professor for the past two years at the University of British Columbia, I was hoping you would be able to write a reference letter describing our professional relationship.

As a student in your Biology 363 program at the University of British Columbia, I was able to develop many laboratory skills which I had no previous knowledge about. Working at your lab has given me an opportunity to demonstrate my working etiquette and my ability to work in team settings. These are essential skills that will undoubtedly help me succeed in the future.

I would greatly appreciate the time taken for you to describe our professional relationship. More information about the program can be found at:
