The **Early Development Instrument (EDI)** is a questionnaire that measures five core areas of early child development that are known to be good predictors of adult health, education and social outcomes. EDI questionnaires are completed by kindergarten teachers from across British Columbia for all children in their classes. They are filled out in February, after teachers have had the chance to get to know their students. This ensures that teachers are able to answer the questions knowledgeably.

For more detailed information regarding the survey, visit our website: <http://earlylearning.ubc.ca/edi/>

General Preparation - Prior to completing your EDI questionnaires

Step 1: Check your school district email

You will receive an email from “edi@help.ubc.ca” with a link that you can follow to create your own password and log on to the EDI e-System. If the password link has expired, you will be taken to the EDI e-System website and the note will read that you have been sent a new password reset link to your email.

Didn't receive an email to create your password? Contact the EDI Implementation Lead edi@help.ubc.ca.

Step 2: Log in to the EDI e-System

Visit edi.ubc.ca. Please log in using your school district email address and the password that you created in Step 1.

TIP: If your school district email address isn't working, check if you have any “alias” email addresses through the school district that may work instead (e.g., t.teacher@sd99.bc.ca and ted.teacher@sd99.bc.ca).

The screenshot shows a login form titled 'Login' with a lock icon. It has two input fields: 'Email address:' and 'Password:', both with asterisks indicating required fields. Below the fields is a green 'Log in' button. At the bottom, there is a blue link that says 'Forgotten your password?'.

Click the “[Forgotten your password?](#)” link to send yourself an email with a link to create a new password.

Step 3: Review your class list

Review your class list and add any students who are missing from the list, but have been part of your class for more than 30 days (and had a parent/guardian information letter sent home). Remove any students who are not in your class anymore, or whose parents requested they withdraw. Please track parent withdrawal forms to identify those students who are not participating.

Select the “Add/Delete Students” button on the sidebar to:

Step 4: Complete your Teacher Profile (optional)

You can complete your teacher profile before completing your EDI questionnaires. The Teacher Profile helps HELP understand EDI findings and to know something about the teachers working with those students. The teacher profile is used to better understand the data as well as to revise teacher training. No teacher is ever identified and completion of this page is optional.

Profile

1. Profile Information

The following information is important for HELP to have, however, it is optional

Is this your first time completing the EDI?

If not your first time, how many times have you completed the EDI previously?

Did you attend a teacher training session previously?

Step 5: Complete your EDIs between February 1-28, 2022

1. Select the “Complete your EDIs” button on the sidebar, and click on “EDI 2021-22”.

2. Select a student from your class list.

There are 5 sections that make up the EDI:

Section A - Physical Well-Being
