Introduction [3](#)

Child Demographics [5](#)

Section A: Physical Well-Being [11](#)

Section B: Language and Cognitive Skills [15](#)

Section C: Social and Emotional Development [25](#)

Section D: Special Concerns [36](#)

Section E: Additional Questions [39](#)

Introduction

The Early Development Instrument is a teacher-completed checklist that assesses children's readiness to learn at school in five domains:

- physical health and well-being
- social competence
- emotional maturity
- language and cognitive development, and
- communication skills and general knowledge.
- It also includes two additional scales indicating the child's special skills and problems.

The instrument is designed to be interpreted at the **group** level. This means that it can be brief and focused only on certain aspects of behaviour and can be completed for each child in the group. It has not been set up to give a complete picture of an individual child.

This instrument has undergone extensive pilot testing, and has been compared with direct assessment results and with parent reports. It has also been repeated on the same group of children within a short space of time. It has demonstrated reliability in all these tests.

In the process of the development, the EDI has also been streamlined, using detailed input from teachers. Questions that did not seem clear enough, or did not bring any new information have been removed.

In making the ratings on the children in your class it is important to consider how your interpretations of child development, and therefore your responses, may be influenced by your:

**gender...life experiences...
cultural heritage...socio-economic
circumstances.. ...role models...values...**

Below you will find a list of all the questions from the Early Development Instrument. Most of them will have explanatory notes, or detailed rating descriptions for each response option.

The explanations are based on consultations with teachers and the testing of over 61,000 children in 1999 and 2000. No explanations were added where questions were considered self-explanatory.

If you would like to comment on this guide or any particular questions, we would be glad to hear from you.

Please complete all the information in the instrument as described below:

Child Demographics

1. Class Assignment

• This question is usually pre-filled. You do not have to enter anything in this field. • In the event you do have to answer this question, please answer as follows:

- Kindergarten: Refers to a child in a class 1 year before starting Grade 1.

2. Child's Date of Birth

- Please complete only if the date of birth is INCORRECT.

If this information is missing or incorrect be sure to fill in the child's actual date of birth.

3. Child's Sex

- Please complete only if the child's sex is INCORRECT.

4. Child's Gender Identity

- Please respond according to the direct communication you have had with the child's parent(s)/ caregiver(s). If you are unsure, select "I don't know."

5. Child's Postal Code

- Please complete only if the child's postal code is INCORRECT.

6. Class Type

- Please select the type of class the child is in (e.g. kindergarten, kindergarten/grade 1, etc.).

7. Date of Completion

- This information assists in the accurate assessment of the child's age at time of completion of the EDI.
- Electronic completion: The date of completion will appear automatically. You do not have to enter anything in this field.
- Paper form: For days and months from 1 to 9, please mark 0 as the first digit.

8. BC Ministry of Education-designated Special Needs

This question must **not** be left blank, otherwise these children will be omitted from the analysis.

Please use the general guidelines provided below:

Yes	No
<p>Answer Yes if this student is designated by the BC Ministry of Education with one or more of the categories below.</p> <p>Special Needs: Students with special needs have disabilities of an intellectual, physical, sensory, emotional, or behavioural nature, or have a learning disability.</p> <p style="text-align: center;">(BC Ministry of Education definition)</p>	<p>Student is not BC Ministry of Education-designated Special Needs</p> <p>If you are concerned that the child may have special needs, please indicate the concern in Section D of the questionnaire instead.</p> <p style="text-align: center;">* * Gifted or talented * *</p> <p>Please mark, instead, their special talents in Section B, questions 34-39</p>

BC Ministry of Education Categories of Special Needs		
Level	Letter	Category
1	A	Physically Dependent
1	B	Deaf blind
2	C	Moderate to Profound Intellectual Disability
2	D	Physical Disability/Chronic Health Impairment
2	E	Visual Impairment
2	F	Deaf and Hard of Hearing
2	G	Autism Spectrum Disorder
3	H	Intensive Behaviour Intervention/Serious Mental Illness
	K	Mild Intellectual Disability
	Q	Learning Disability
	R	Behaviour Support/Mental Illness

LANGUAGE OF INSTRUCTION:

Language of Instruction is the language in which the majority of instruction occurs in the school board/school district. This will be either English or French.

9a. Child Considered ELL

- In most school boards, children are identified as having the ELL status if they are not fluent enough in English to easily follow the classroom educational activities. Ministry funding for English as a Second Dialect (ESD) is recognized as part of ELL support services.

Yes	No
Child for whom English is not their first language, and who needs additional instruction in English Note: If yes do not indicate “English Only” on question 12.	Child for whom English is the first language. Child is able to speak another language apart from English, but whose English is fluent. Child whose first language (developmentally) is not English but whose English is fluent.

b. Child Considered ESD (English as Second Dialect)

Yes	No
English is their first language, but they speak a variation of English that is significantly different than that used in school. ESD: Students reported as requiring ESD services speak a dialect of English that differs significantly from Standard English used in school and in broader Canadian society. (BC Ministry of Education)	Child uses classroom English. Comprehension and usage of English in the classroom is fluent, and the child is able to speak another dialect.

10. French Immersion

- Only for Anglophone communities.
- Francophone classes/schools are not in this category.
- Please indicate whether the class is French Immersion or not.

French Immersion is a program in which kindergarten students are introduced early to French language through immersion, however, the main language of the schools remains to be English. Therefore, French Immersion teachers are asked to respond to the EDI questions based on their observations of the children's abilities in English. It would be unfair and inaccurate to measure the children's ability in French as for most students this is their first exposure to the language and assessing their abilities in French would put them at an unfair disadvantage.

If the teacher does not feel comfortable with the question they can indicate 'I don't know'.

Acquisition of a second language is strongly based on the success of the child's acquisition of their first language and many of the skill sets are interchangeable. The questions on the EDI reflect transferable skills and abilities therefore if the child has mastered these skills in French they have most likely also achieved this in English as well.

Teachers are requested to use their best judgment in answering EDI items regarding skills they have not had an opportunity to observe or where it is not part of the philosophy to test/observe the ability or behaviour in English.

11. Other Immersion

- Please indicate if this class is part of an immersion program for a language other than French.

12a. Indigenous

- Is this child Indigenous? (Check all that apply.)
- Parents/caregivers have the right to choose to identify their child as Indigenous or not. Please only change the answer if it does not reflect what parents/caregivers have told you or the school.

No	Yes	Don't know
Child is NOT covered by the definition on the right.	Aboriginal: An Aboriginal person is identified in accordance to the Constitution Act of 1982, Part II, Section 35(2), as “the Indian, Inuit and Métis peoples of Canada”. Canada’s aboriginal population is distinct and diverse. “First Nations” is the generally preferred term for Indian peoples of Canada. The term “Indian” is still used where referring to legislation or government statistics.	Please choose this answer if you are unsure if the child is Indigenous or not.
	If so, which of the following does the child identify with?	
	First Nations	

b. First Nations, Métis Homeland(s) and Inuit Nunangat community/communities Identification

- Does this child self-identify with a First Nation(s), Métis Homeland(s) and/or Inuit Nunangat community/communities:
 - Located in British Columbia?
 - Located elsewhere in Canada?
- If you chose "Other", please specify.
- This question is contingent on the answer of Question 12a being First Nations, Métis and/or Inuit.

c. First Nation, Métis and Inuit Language Identification

- Which First Nation, Métis and Inuit language does this child identify with?
- If you chose "Other", please specify.
- **The child does not have to speak or understand the language of identification.**

13. Child's First Language(s)

- First language refers to the language a child learned first during his/her development and still can understand (and/or speak).
- Please select up to three languages from the dropdown menus.
- If you cannot find the language you are looking for, please select **Other** and let us know the name of the language in the comments at the end of the questionnaire.
- If you do not know what the "other" language is, please select **Unknown**.

14. Communicates Adequately in his/her First Language

- If the child communicates adequately in his/her native tongue (based on your observation or parent information) please indicate **YES**.
- If not please indicate **NO**.
- If you are uncertain please indicate **DON'T KNOW**.

15. Student Status

- Student must be currently in your class for you to complete the EDI. If the child is currently in your class but has been there for less than one month, do not complete the rest of the form. This applies to children who have entered the class at some time other than the beginning of the year or who have been off sick or travelling.
- If the child has moved out of this class/school, do not complete the rest of the questionnaire.
- If parents/guardians request that you do not assess their child, mark **OTHER** and do not fill in the rest of the questionnaire.

16. Student is Repeating this Grade

- If the child is repeating this grade please indicate **YES**.
- If not please indicate **NO**.

NOTE REGARDING THE RANGE OF RATING ANSWERS

In most cases a description of the skills for each rating is provided. Where it is not, a judgment as to the level of skill or ability of the child may be required.

Your judgment should reflect the actual individual child's performance on that measure, not how the child is performing relative to his or her classroom peers.

The **DON'T KNOW** option should only be used if you have not had the opportunity for observing/testing this particular skill with the child or do not have the required information about the child.

Section A: Physical Well-Being

1. About how many regular days has the child been absent since the beginning of school in the fall?

- If a child is in a half-day program (5 days per week, half-day), each “day” counts as **0.5**.
- If a child is in a full-day program (alternate days, full day), each day counts as **1**.

Since the start of school in the fall, has this child sometimes, (more than once) arrived:

ANSWERS ARE: YES, NO OR DON'T KNOW

2. over- or underdressed for school-related activities

- Refers to the child being dressed appropriately vs. inappropriately for the weather and experiencing a certain degree of discomfort.

Yes	No
For instance, does not have a warm coat for an outside trip in cold weather (underdressed) OR clothes are too heavy in warm weather (overdressed).	Dresses appropriately for the weather or dresses according to comfort and needs.

3. too tired/sick to do school work

- Refers to a child coming to school with some ailment, a child complaining about feeling sick, or a child being sleepy and/or lethargic, which interferes with his or her participation in school activities (academic or physical).

Yes	No
Often or occasionally appears sleepy or complains about feeling sick.	Consistently arrives at school ready to do work and does not appear tired or complain of feeling sick. Since the start of school the child may have either been sent home ill or arrived at school tired, but this has not occurred repeatedly.

4. late

- Refers to a child’s arrival at school after the start of the class but before the end of class.

5. hungry

- This question refers only to the child’s hunger level upon arrival at school, rather than throughout the day.
- It is possible for children to remark that they are hungry even if they have had breakfast, therefore, it is important that you use your professional judgment to determine if the child's comments indicate a serious, recurring concern.

Yes	No
For instance the child sometimes or regularly indicates one or more of the following: <ul style="list-style-type: none">• reports having had no breakfast,• complains of hunger,• appears lethargic.	The child never complains of hunger and/or never reports having skipped breakfast.

Would you say that this child:

ANSWERS ARE: **YES, NO OR DON'T KNOW**

6. is independent in washroom habits most of the time

- This question refers to the child knowing when to use the washroom (i.e. does not have “accidents”). The child is able to undo/do zippers, snaps, buttons on clothing that are required to go to the washroom, and can wash and dry hands by him or herself.

Yes	No
The child can do all of the above tasks always or most of the time. If a child had an accident once early in the school year answer YES .	The child cannot do most or all of the tasks listed above or the child has had more than one accident since the beginning of the school year.

7. shows an established hand preference (right vs. left or vice versa)

8. is well coordinated (i.e., moves without running into or tripping over things)

- Includes running, ability to change directions while running, hopping, skipping, jumping, etc.

How would you rate this child's:

ANSWERS ARE: **VERY GOOD/GOOD, AVERAGE, POOR/VERY POOR OR DON'T KNOW**

9. proficiency at holding a pen, crayons, or a brush

- “Proficiency” refers to the level of skill with this task.
- Do not make concessions for the child's limited exposure to writing tools.

Very good / good	Average	Poor / very poor
Uses precision writing grip all or most of the time.	Sometimes uses precision writing grip, but is not consistent.	Uses fist grip or other dysfunctional grip most or all of the time.

10. ability to manipulate objects

- Includes the manipulation of smaller objects/toys and items, e.g., etch-a-sketch, threading beads, buttons on clothing.

11. ability to climb stairs

- If there are no stairs where the child can be observed, please use your professional judgment to answer this question, including, e.g., the ability to climb playground equipment.
- If you have seen the child complete a range of related physical activities such as skipping, running or hopping without any problems then answer **Very good / good**.

Very good / good	Average	Poor / very poor
Walks up and down stairs alternating feet all or most of the time.	Walks up and down stairs without difficulty, but not necessarily alternating feet.	Most of the time does not alternate feet, has trouble going up or down.

12. level of energy throughout the school day

Very good / good	Average	Poor / very poor
Child does not tire at all or excessively as the day progresses.	Child does tire, but it does not interfere too much with school activities.	Child tires and it interferes or restricts their ability to participate in school activities.

13. overall physical development

- Includes fine and gross motor skills, stamina, muscle tone, etc.

Section B: Language and Cognitive Skills

This section collects information about the child's language and cognitive skills in English. The child may be able to demonstrate these skills in the current operational language (home language), however what we are seeking for this section is information about the language skills needed in the school context in English.

GENERAL NOTES FOR THIS SECTION

Take into consideration the acquisition and use of language, rather than correct grammar. A formal assessment of language and cognitive skills is not intended.

Rate the child as he/she **currently** presents and not based on how he/she presented at the beginning of the school year. Responses should be based on an informal knowledge of the child's skills using observations from the past month.

Answer **YES** if the particular skill has already developed or is developing well.

Answer **NO** if the skill has not yet developed or is developing too slowly.

How would you rate this child's:

ANSWERS ARE: **VERY GOOD/GOOD, AVERAGE, POOR/VERY POOR OR DON'T KNOW**

1. ability to use language effectively in English

- Refers to the child's use of appropriate words/expressions at appropriate times and the child's contribution to conversations.

2. ability to listen in English

- Refers to the child's ability to listen without visual clues for at least a few minutes.

3. ability to tell a story

- Refers to the child's skill in retelling a story heard before, using appropriate vocabulary in matching events with words.

4. ability to take part in imaginative play

Very good / good	Average	Poor / very poor
<p>The child shows lots of imagination and interest in make-believe.</p> <p>The child shows imaginative and creative ways of play.</p>	<p>The child engages in pretend play easily and naturally.</p>	<p>The child requires encouragement, modeling and/or assistance to engage in pretend play.</p>

5. ability to communicate own needs in a way understandable to adults and peers

- Refers to the child's ability to use appropriate verbal and, when necessary, non-verbal means, to communicate what kind of assistance may be needed in such a way that is understandable to the teacher and other children. This question is not meant as a measure of proficiency in English.

Very good / good	Average	Poor / very poor
<p>Child can reliably state his/her needs in a way that cannot be misinterpreted, even if it is not done using proper grammatical language, or with help of non-verbal communication, e.g., pointing to appropriate items.</p>	<p>On most occasions the child is able to communicate his/her needs, but clarification may be required at times.</p>	<p>Most of the time, communication of the child's needs is difficult for peers and adults to understand, requiring repetitions and guesses.</p>

6. ability to understand on first try what is being said to him/her

- In English
- Refers to the child being able to understand simple commands or statements when directly addressed to the child.

Very good / good	Average	Poor / very poor
<p>The child consistently demonstrates understanding of the spoken information.</p> <p>The child is able to identify the main ideas from the spoken material by carrying out the task or asking a clarifying question or making a relevant comment.</p>	<p>Most of the time the child demonstrates understanding of the spoken word.</p> <p>The child carries out the task or asks clarifying questions or makes relevant comments but does not consistently use all three.</p>	<p>The child rarely demonstrates understanding of the spoken word.</p> <p>That is, the child does not provide an appropriate response to the spoken word.</p>

CAUTION: If you have enough reason to believe that the child understands but chooses not to respond, please still rate as **GOOD**; the behaviour aspect is rated elsewhere.

7. ability to articulate clearly, without sound substitutions

- In English
- Refers to the child’s possible speech difficulty, rather than their accent.

Very good / good	Average	Poor / very poor
No or a few articulation problems in the more advanced areas (e.g., words like “leisure”).	The child can articulate clearly most easy words, but still makes sound substitutions.	The child has poor articulation, makes several sound substitutions with most letter-sounds and is difficult to understand.

GENERAL NOTE FOR QUESTIONS 8-21

The child’s exposure to reading material prior to school entry will vary, but by January-March all children will have had some exposure.

Do not overcompensate for a child’s lack of exposure when answering these questions. It is not expected that children can read and write by the time they enter school, but it is important to capture information about those who can.

Would you say that this child:

ANSWERS ARE: YES, NO OR DON’T KNOW

8. knows how to handle a book (e.g. turn a page)

Yes	No
Knows which way up the book should be held and knows how to turn pages	Does not have this knowledge of holding and handling books

9. is generally interested in books (pictures and print)

- Refers to the child being attentive to books, picking them up to look at them spontaneously, listening at least for a short period of time when a teacher reads or shows a book.

10. is interested in reading (inquisitive/curious about the meaning of printed material)

- Refers to the child either independently trying to “read” a book by themselves, asking to have a book read to them, or listening attentively when books are being read.

Yes	No
Asks to have a book read to them OR watches and listens intently when books are read to the class OR asks and answers questions about the content OR will go and select a book to read/view at appropriate times.	Does not indicate interest in books and will lose attention when books are being read to the class.

11. is able to identify at least 10 letters of the alphabet

- Refers to either capital or lower-case letters in alphabetical or random order.

Yes	No
The child can identify 10 or more letters.	The child cannot identify at least 10 letters.

12. is able to attach sounds to letters

Yes	No
The child is able to attach sounds to letters in most cases (> 50%), regardless of whether or not the sounds start like the name of the letter.	The child is able to attach sounds to a few letters or none at all (< 50%).

13. is showing awareness of rhyming words

- The rhyming concept may need to be explained for children whose home language does not have any or many rhyming words (e.g., Arabic). This is worth noting, but it should not influence how you answer the question for these children.

Yes	No
When asked, the child provides a rhyming word when given a word or after being provided with an example. The child may spontaneously speak or sing a list of rhyming words	The child does not provide a rhyming word when given a word or after being provided with an example.

14. is able to participate in group reading activities

- The child does not need to be familiar with all of the objects in books, such as the names of animals, or need to be reading. Participation as part of the group is all that is of interest.

Yes	No
<p>In a group setting, the child attends to, responds to, and/or recognizes objects and ideas in illustrations and text of the reading material.</p> <ul style="list-style-type: none">• (e.g., the child chimes in during choral reading activities or supplies appropriate responses when the teacher omits words.)	<p>In a group setting the child does not attend to, respond to, and/or recognize objects and ideas in illustrations and text of the reading material.</p> <ul style="list-style-type: none">• (e.g., the child doesn't chime in during choral reading activities or supply appropriate responses when the teacher omits words.)

15. is able to read simple words

Yes	No
<p>The child reads most commonly used 3- or 4-letter words (e.g., mom, dad, cat, dog.)</p> <p>The child may read simple words with the help of prompts.</p>	<p>The child reads few or no 3- or 4-letter words even with prompts.</p>

16. is able to read complex words

Yes	No
<p>The child reads a few words of two or more syllables (a few of them is enough).</p> <p>The child may read complex words with the help of prompts.</p>	<p>The child reads no complex words, even with prompts.</p>

17. is able to read simple sentences

Yes	No
<p>The child reads 3-6 word sentences (e.g., The cat sat on the mat; I am..., I like..., I can...).</p> <p>The child may read simple sentences when prompted.</p> <p>The use of illustrations to predict meaning is appropriate.</p>	<p>The child does not read simple sentences, even when prompted from others or reference to illustrations.</p>

18. is experimenting with writing tools

Yes	No
The child independently chooses to use pencils, pens, crayons, etc.	The child does not choose to use a variety of writing tools.

19. is aware of writing directions in English

- This question refers to the child’s awareness of writing directions and not the ability to write.

Yes	No
The child knows a sentence starts on the left and moves to the right. This may have been demonstrated through one of the following: mimicking writing direction using a finger, swirling or scribbling left to right (early writing).	For example, the child randomly scribbles or cannot identify the beginning or end of a sentence or where text would begin on a page.

20. is interested in writing voluntarily (and not only under the teacher’s direction)

- Refers to the child’s initiative in using writing/drawing tools to scribble, pretend to write, label objects with letters or letter-like symbols.
- An attempt to link letters must be present.

Yes	No
The child puts his or her name on work with or without being encouraged, writes messages, attempts to label objects in pictures. It does not matter whether the words are legible. It only matters that the child is attempting to link letters together. This must occur on more than one occasion.	The child only attempts to write when instructed by an adult.

21. is able to write his/her own name in English

Yes	No
Without assistance (independently) the child writes his/her first name from memory. The letters must be in sequence. The letters may be reversed, inverted, upper case letters, lower case letters, or a combination of lower and upper case letters. All letters must be present most of the time.	The child writes name only with assistance OR the child writes name with letters in random order OR the child gets the first and the last letters correct, but the middle ones are usually jumbled OR the child misses letters most of the time.

GENERAL NOTE FOR QUESTIONS 22 & 23

While it is acknowledged that copying the teacher and writing independently are two different skills, these questions are concerned with the end results (i.e., the child's ability to write).

Spelling, punctuation and grammar are not particularly important so long as meaning is conveyed.

22. is able to write simple words

- Refers to either writing words on his/her own or by copying the teacher.

23. is able to write simple sentences

- Refers to either writing sentences on his/her own or by copying the teacher.

24. is able to remember things easily

- In this instance 'things' refers to all elements of material being taught: facts, events, letters, numbers, book characters, etc. Both long and short term memory should be considered.

Yes	No
The child consistently remembers most or all of the new material introduced in the class from one period to another and from day to day. For instance, this may include one or more of the following: some letters or numbers, special interest facts, names of characters in a book read in class recently, words to a song, etc. The child recalls the names of peers, teachers, and other school personnel most of the time.	The child regularly cannot recall recently learned material and/or requires many repetitions of new knowledge to retain it. For example, the child cannot recall the names of peers and others (refers to them as "him" or "her").

25. is interested in mathematics

- Refers to the child participating eagerly in activities involving voluntary demonstration of skills, such as counting or adding using fingers.

Yes	No
The child readily participates in activities involving a selection of math related toys (e.g., counting, sorting, blocks, etc).	The child is reluctant to or does not participate in activities involving a selection of math related toys (e.g., counting, sorting, blocks, etc).

26. is interested in games involving numbers

- Refers to the child participating eagerly in games involving numbers or the voluntary selection of number-related toys (e.g. counting, sorting blocks).
- If toys are used, they must be used, at least in part, for the purposes they were designed. For instance, counters are used for counting or colour sorting, not just for flicking across the room.

Yes	No
The child readily participates in games involving numbers, voluntary selection of number-related toys, etc.	The child participates with encouragement, prompting, or assistance or does not participate in games involving numbers, voluntary selection of number-related toys, etc.

27. is able to sort and classify objects by a common characteristic (e.g., shape, colour, size)

- Refers to the child demonstrating the ability to do one or more of the following: play matching games, separate counters into common colours, or name the number of objects presented (e.g. say three or write the visual symbol for three when three objects are presented).

Yes	No
The child sorts and classifies objects by a number of common characteristics (e.g., shape, size, colour).	The child sorts and classifies objects by only one characteristic (e.g., only colour) or does not sort and classify objects by a common characteristic.

28. is able to use one-to-one correspondence

- Refers to the child’s ability to:
 - recognize the fact that numbers change as the number of objects change;
 - show understanding of matching games where there has to be the same number of objects on each picture, or;
 - play games matching numbers to pictures of the corresponding numbers of objects (e.g. a picture of 2 with a picture of two apples).

29. is able to count to 20

- Refers to the child’s ability to count by rote without mistakes from 1 to 20 most of the time.

30. is able to recognize numbers 1-10

- Refers to the child’s knowing the name and recognizing the visual symbol of the numbers.

Yes	No
The child knows the name and recognizes the visual symbol of ALL the numbers 1-10 most of the time; may be with prompting.	The child recognizes only a few of the numbers 1-10 or none at all, even with prompting.

31. is able to say which number is bigger of the two

- Refers to numerals **not** objects; only up to 10 (not teens).

Yes	No
The child is able to select the larger numeral of the numerals up to 10 but not the teens.	The child cannot do this for small numbers up to ten.

32. is able to recognize geometric shapes (e.g., triangle, circle, square)

Yes	No
The child can point to/select at least three shapes. The child does not have to identify the shapes by name. This may be prompted.	The child points to fewer than 3 shapes, even when prompted.

33. understands simple time concepts (e.g., today, summer, bedtime)

- The child demonstrates knowledge of at least one simple time concept, such as a daily time concept.
- Examples include, lunchtime, morning, night.

GENERAL NOTE FOR QUESTIONS 34 TO 40

Special indicates the child demonstrates exceptional skills (capability or aptitude) that are not expected for his or her age in that area.

Special or exceptional refers to a skill or a talent that is greater than the level expected for a typical student.

For example, the child’s talent is notable to other adults.

If you are not sure if the skill is special or exceptional, indicate **No**.

34. demonstrates special numeracy skills or talents

- This includes demonstration of numeracy skills and talents in both English and in languages other than English and means that the child is capable of doing mathematical tasks well beyond that expected for his/her age.
- Example: counts to 100 without mistakes; can add and subtract without difficulty; is able to make quick quantitative comparisons without visual props; etc.

35. demonstrates special literacy skills or talents

- This includes demonstration of literacy skills and talents in both English and in languages other than English and means that the child is capable of demonstrating literacy skills well beyond that expected for his/her age.
- Example: child can read children's books by him/herself; can recite long texts from memory; can recount a story in a creative and/or mature way beyond their age; etc.

36. demonstrates special skills or talents in arts

- This refers to the child's creative skills, including drawing, storytelling and acting skills.
- Example: artistic creations such as paintings or sculptures, or demonstrations of spatial imagination; active, creative and involved participation in a class play that keeps the classmates engaged, etc.

37. demonstrates special skills or talents in music

- Example: child plays an instrument or sings with a great degree of skill.

38. demonstrates special skills or talents in athletics/dance

- This refers to the child's physical skills.
- Example: child exceeds expectations in school sports for example by being able to play with slightly older children; child's dance movements are sophisticated and coordinated, and creative; etc.

39. demonstrates special skills or talents in problem solving in a creative way

- Refers to both cognitive and social problem solving.
- Example: comes up with a surprising, yet effective, solution to class or everyday tasks on a regular basis.

40. demonstrates special skills or talents in other areas (specify)

Section C: Social and Emotional Development

How would you rate this child's:

ANSWERS ARE: **VERY GOOD/GOOD, AVERAGE, POOR/VERY POOR OR DON'T KNOW**

1. overall social/emotional development

- Social-emotional development refers to the ability to form close, secure relationships and to experience, regulate, and express emotions.
 - **Social** refers to how individuals interact with others.
 - **Emotional** refers to how individuals feel about themselves, others and the world.
- Base your answer to this question on how you view the child's general ability at interacting and relating appropriately to peers and reacting to unexpected contexts, as well as the child's interest in the surrounding world.

2. ability to get along with peers

Very good / good	Average	Poor / very poor
The child does well both in one-on-one contexts and in a group.	Child does only moderately well in getting along with peers (e.g., quarrels or takes offence) AND/OR is comfortable only in one setting (one-on-one or in a group).	Child is uncomfortable around peers in either groups or one-on-one settings AND/OR gets into frequent conflicts with peers.

GENERAL NOTES

Below is a list of statements that describe some of the feelings and behaviours of children.

Whenever possible, answer **OFTEN OR VERY TRUE, SOMETIMES OR SOMEWHAT TRUE, NEVER OR NOT TRUE.**

For each statement, please choose the answer that best describes the child **now**, but use the time since the beginning of the school year as your reference frame.

Restrict your responses to your direct observations of the child in the classroom/school environment. For example, if you have not seen a child exhibit a particular behaviour since the beginning of the school year, then the correct answer is **NEVER OR NOT TRUE** and not **DON'T KNOW.**

Keep in mind that too many missing values (which include **DON'T KNOW** responses) render the questionnaire invalid.

Would you say that this child:

ANSWERS ARE: **OFTEN/VERY TRUE, SOMETIMES/SOMEWHAT TRUE, NEVER/NOT TRUE OR DON'T KNOW**

3. plays and works cooperatively with other children at the level appropriate for his/her age

- The child can play or perform a task that requires participation of other children for at least a short amount of time.

4. is able to play with various children

- The child plays with at least three different children on a regular basis.

5. follows rules and instructions

- Refers to the child's **ABILITY** to generally follow the class and behaviour rules.
- Once rules or schedules have been explained, the child generally has no trouble understanding them and following them. For example, the child knows that it is necessary to put up a hand to speak.
- When given instructions, the child attempts to follow them (although not necessarily accurately).

6. respects the property of others

- For example, the child asks for permission if he/she wants to play/use an object belonging to another child.

7. demonstrates self-control

- This may be demonstrated in a variety of ways, such as sharing toys, taking only a 'fair share' of communal food, or displaying emotions in an appropriate manner.

8. shows self-confidence

- This item indicates that the child is confident in his/her own abilities even in some small area and may be demonstrated by the child's showing pride in some skill (singing, reading), or by describing herself as able to do something, or by calmly approaching a new task.

9. demonstrates respect for adults

- This may be demonstrated in a variety of ways, such as not interrupting when adults are talking (or does it only occasionally), is polite when addressing adults.

10. demonstrates respect for other children

- Is attentive to the needs of other children and treats them in the same way they would like to be treated. This may be demonstrated in a variety of ways:
 - not usually interrupting other children who are talking;
 - taking care of not interrupting other children in their task;
 - being careful with other children's work;
 - showing an interest in other children and perhaps differences between himself and others.

11. accepts responsibility for actions

- This may be demonstrated in a variety of ways:
 - the child doesn't argue back when disciplined
 - the child does not show attitude when reprimanded,
 - the child owns up to poor behaviour.

12. listens attentively

- Child focuses on the teacher/speaker.
- This may be demonstrated both during class activities directed at the whole group (e.g. story telling or introduction of new concepts) and in one-on-one situations.

13. follows directions

- Refers to the child's actual behaviour: following directions when given, not to the child's ability to do so.
- Answer **NEVER OR NOT TRUE** if child requires frequent redirecting.

14. completes work on time

- Completing work on time refers to completion of work within a time frame appropriately provided for the student.

15. works independently

- This refers to the child's independence within his developmental capacity, i.e. child is able to do certain tasks by himself, and focus on his/her work

16. takes care of school materials

17. works neatly and carefully

18. is curious about the world

- This may be demonstrated in a variety of ways:
 - the child asks lots of questions
 - the child participates in discussions about a variety of topics.

GENERAL NOTE FOR QUESTIONS 19-21

The intent of questions 19-21 is about engaging with objects, toys, games, and books that are not familiar to the child. The emphasis is on “**new**” rather than “**eager.**”

Choose the option that best describes the frequency of the child’s choice to play with a new toy, game, or book, when the toy, game or book appears in the classroom.

19. is eager to play with a new toy

20. is eager to play a new game

21. is eager to play with/read a new book

22. is able to solve day-to-day problems by him/herself

- Refers to the child’s finding appropriate solutions to day-to-day problems such as:
 - when his/her selected centre is “full,” another student chooses the book he/she had wanted, when a pencil breaks, water spills, etc. the child chooses an alternative, uses words to express choices, finds a way to “fix” something/the situation.

Answer **NEVER OR NOT TRUE** if the child usually requires assistance from the teacher in such situations.

23. is able to follow one-step instructions

- This has to be demonstrated by the child following one-step instructions with ease and without requiring frequent redirection or repetition of instructions.

24. is able to follow class routines without reminders

- Following class routines means that the child can successfully move between regular activities without individual prompting by the teacher. For instance, the child may know the group they are in for reading activities and move to that group instinctively at reading time, or know what they need to take with them to specialist classes (e.g. music or physical education).

25. is able to adjust to changes in routines

- This could be demonstrated by the child’s quick adjustment to returning to school after a holiday break, by not being confused or upset when chairs or tables are rearranged in the classroom, by appropriate behaviour when exposed to unfamiliar teachers (e.g., substitutes when the regular teacher is off).

26. answers questions showing knowledge about the world (e.g., leaves fall in the autumn, apple is a fruit, dogs bark, etc.)

- Knowledge of the world can include knowledge of the purpose of objects/animals (e.g. animals can be pets or food) knowledge of when events occur and knowledge of what objects do (e.g., boats float in water).
- Questions may be answered through various means, including demonstration of knowledge and understanding through pointing, stories, drawings, play-acting or modeling how things work or what things are.
- For Aboriginal students consider their specific knowledge such as changes associated with the seasons.

27. shows tolerance to someone who made a mistake (e.g., when a child gives a wrong answer to a question posed by the teacher)

- This refers to the child not teasing or making fun of others who make mistakes or showing that they understand that anybody can make such a mistake.

GENERAL NOTE FOR QUESTIONS 28-35

By the time the EDI is completed, most children will have been exposed to the situations below. Therefore, if they have not shown any of the described behaviours, the appropriate answer is

NEVER OR NOT TRUE.

If you have not had a chance to observe the child's behaviour, please choose **DON'T KNOW** or use your professional judgment to make a selection.

Keep in mind that too many **DON'T KNOW** answers make the questionnaire invalid.

28. will try to help someone who has been hurt

- Also includes if a child seeks out assistance from an adult.

29. volunteers to help clear up a mess someone else has made

30. if there is a quarrel or dispute will try to stop it

CULTURAL DIVERSITY ALERT

It may be appropriate to enter **DON'T KNOW** if you think a child does not intervene or avoids intervening out of respect for the children involved or because that is the culturally appropriate behaviour

- This behaviour is demonstrated by a child who reacts in ways that are appropriate to the context and that will help resolve the conflict, even if he or she is not involved and does not know the people involved.

- This may include one or more of the following:
 - the child seeking appropriate assistance from an adult;
 - diverting the children involved to another activity;
 - discouraging others from being involved;
 - placing themselves physically between quarrelling children; or
 - seeking other ways to defuse the conflict.
- Answer **NEVER OR NOT TRUE** if you have witnessed the child not trying to help resolve a dispute or find a peaceful solution to a conflict.
- Answer **DON'T KNOW** if you have never had a chance to observe the child in the context of a conflict between other children.

31. offers to help other children who have difficulty with a task

- Refers to the child offering to assist when he or she notices peers struggling or in response to a verbal or non-verbal request for assistance.
- Assistance is not imposed and is offered independently without encouragement from the teacher.
- The tasks do not have to be academic (e.g., collecting a block from a high shelf in the classroom or assisting another child in a game on the playground).
- Examples of this behaviour include: demonstrating the skill, sharing their work, or doing some of the task.

NOTE

Children who are overly helpful or who offer help to please the teacher should be rated highly only if they are respectful of other children. Taking over or completing another child's task without consideration of that other child should not be counted.

32. comforts a child who is crying or upset

- Examples may include a child who offers a toy/book etc. to a crying or upset peer, child who says "don't cry", "don't be sad", or reasons with the other child not to be upset, or suggests to the teacher ways for comforting the upset peer.

33. spontaneously helps to pick up objects, which another child has dropped (e.g. pencils, books)

CULTURAL DIVERSITY ALERT

Some children may not help because they do not perceive it as their place to touch another person's belongings. In these instances please select **DON'T KNOW**.

- In this behaviour, the emphasis is on spontaneity: the child reacts as if it is a reflex, without being prompted or the expectation of a reward.
- Examples may include picking up sporting equipment, gloves, pencils, with the intention of placing them in their right place or giving back to the owner.
- Do not count if the child claims the objects as his/her own.

34. will invite bystanders to join in a game

- Probably best observed in unstructured games while on the playground or during free play time in class.
- Examples include child who will call others to join a game already in progress (e.g., asks another child "Do you want to play with us?").
- Do not count if a child invites another to start a game with him/her but will not allow others to join in.

35. helps other children who are feeling sick

- Also include if child seeks out assistance from an adult.

36. is upset when left by parent/guardian

- If the teacher has not had the opportunity to observe the child's behavior upon separation, choose **DON'T KNOW**

37. gets into physical fights

- This includes both initiating and being easily provoked to engage in a physical fight as opposed to trying to solve problems in other ways.

38. bullies or is mean to others

- Bullying and being mean may take the form of physical, emotional or verbal manipulation.
- Examples include:
 - child makes negative remarks about others;
 - child intentionally excludes other children from activities or ignores children wanting attention;
 - child is physically assertive, makes unreasonable requests of peers knowing that they will oblige because they are scared or want to be included.
- Rather than focusing on the intent or reasoning behind the actions, please report bullying in instances where the recipient of the actions feels they have been bullied.

39. kicks, bites, hits other children or adults

- Child displays these actions either in or around the school. The actions may be unprovoked, provoked, or may occur as part of what a child considers ‘play’, but are performed intentionally.

40. takes things that do not belong to him/her

- Child may take home something that is clearly explained as exclusively school use, or may take something that belongs to another child without asking.
- There does not have to be an intention of *keeping* these things (i.e., it is not as serious as stealing).

41. laughs at other children’s discomfort

- Child demonstrates amusement (rather than empathy) when another child is embarrassed, hurt, or upset.

42. can’t sit still, is restless

- Child’s restlessness can be demonstrated by:
 - wandering around the classroom or yard
 - fidgeting with hands or feet
 - squirming in their seat
 - fiddling with objects when the rest of the class is working
 - looking around at other children when the class is listening to a story, or when the class is attending an event, like an assembly or a performance.
- Do not include if the child becomes only occasionally restless when bored, tired, needs to use a toilet/washroom, or is excited waiting for special events, etc.

43. is distractible, has trouble sticking to any activity

- The emphasis for this question is on the word **any**.
- Child has difficulty pursuing any activity for the necessary length of time, gets very easily/quickly distracted in an activity by anything happening around him/her, or finds other activities before completing the one started.

44. fidgets

- In **contrast to item 42, this item** is more specific and refers to child's moving hands, fingers, feet, head or body, while sitting in one spot.

45. is defiant

- Child appears to know what a rule is or has understood a request made to them but does not follow it deliberately. **DO NOT** count if a child may not have heard or understood the request.

46. has temper tantrums

47. is impulsive, acts without thinking

- Child unintentionally acts in a way that may inconvenience or distract others.
- Child appears to act without considering others or consequences and is not able to self-monitor his or her actions.
- Examples include:
 - blurting out answers before questions have been completed;
 - starting a task or activity without hearing the full list of instructions;
 - interrupting or intruding on others;
 - unintentionally making upsetting comments;
 - leaving the classroom without asking permission;
 - calling out without raising a hand;
 - running in the classroom, etc.

48. has difficulty awaiting turn in games or groups

- Examples include:
 - child gets agitated if his/her needs or wants are not immediately met;
 - child tries to push in front of other children;
 - child calls out, butts in, takes over;
 - child gets distracted and abandons games or group activities;
 - child who always wants to be first in line;
 - child always wants to receive resources/things first.

49. cannot settle to anything for more than a few moments

- Child cannot engage in an activity (whether teacher-directed, self-chosen or play), except for a very brief period. For example, when given a task, the child:
 - leaves seat in classroom;
 - is easily distracted by extraneous stimuli;
 - does not focus on task/activity;
 - does not follow through to complete a task.

50. is inattentive

- Child fails to give close attention to details or makes careless mistakes.
- Child has difficulty sustaining attention in tasks or play activities.
- Child does not seem to listen when spoken to directly.
- Child loses things necessary for tasks or activities (e.g., toys, assignments, pencils, books, or tools)
- Child does not follow through on instructions and fails to finish schoolwork (**not** due to failure to understand instructions).
- Child daydreams.

51. seems to be unhappy, sad or depressed

- This is distinct from being tired though they may look similar.
- Children may appear withdrawn, be unenthusiastic and tend not to smile much.

Depending on the child and the frequency of the behaviour, select:
OFTEN OR VERY TRUE OR SOMETIMES OR SOMEWHAT TRUE.

52. appears fearful or anxious

- Examples of a fearful or anxious child include:
 - a child who is scared of new things and perhaps even new routines;
 - a child who usually waits until others have attempted a new task before fully engaging;
 - a child who is unsure of her abilities to cope with a task (e.g., child says “I can’t do it; I don’t know how to do it” even though they should be able to).

53. appears worried

- This refers to expectations that things will go wrong, for example that something expected would not happen without a reason.
- Child may be troubled (concerned) by things that should not be causing any worry.

54. cries a lot

- This item refers to the child crying regardless what the reason may be and whether it is one that could elicit distress.

55. is nervous, high-strung or tense

- This refers to the child being sensitive, easily excitable, uneasy, or nervous.
- This can happen either in situations where some degree of nervousness is appropriate (e.g., before public performance), or in situations where it is not obviously apparent what the cause of the anxiety might be.

56. is incapable of making decisions

- Child takes an inappropriately long time to do one or more of the following:
 - choose books to read/look at during silent reading;
 - decide where to sit on the mat;
 - decide which colour pencil to use.
- Child often waits for others to make a decision and mimics them, or requires adult direction or explicit instructions to make appropriate decisions.

57. is shy

- This may be demonstrated by the child being unwilling to initiate interaction with other children, or rarely volunteering for anything, or taking a long time to get used to new things and new people – for example other teachers, or children.

58. sucks a thumb/finger

- Also refers to sucking a piece of clothing, a piece of hair, etc.

Section D: Special Concerns

In this section, **SPECIAL** refers to the needs already noted on the cover page as **SPECIAL NEEDS**, and any other difficulties that the child is currently experiencing.

If in doubt whether a particular impairment is included in the categories listed please mark it as **OTHER** and explain

Please base your answers on **TEACHER OBSERVATION OR MEDICAL DIAGNOSIS AND/OR PARENT/GUARDIAN INFORMATION**

1. Does the student have a difficulty that influences his/her ability to do school work in a regular classroom?

If YES above, please mark **all** that apply

- 2.
- a) physical disability
 - b) visual impairment
 - c) hearing impairment
 - d) speech impairment
 - e) learning disability
 - f) emotional concern
 - g) behavioural concern
 - h) home environment/concerns at home
 - i) chronic medical/ health concerns
 - j) unaddressed dental needs
 - k) other (if known, please print below)

3. If the child has received a diagnosis or identification by a doctor or psychological professional, please indicate. You can indicate up to three diagnoses. If there are more than three, please write in the “Other” box. Please do not use children’s names.

DIAGNOSIS	CODE
<i>Mental Health</i>	
ADHD	1
Anxiety	2
Depression	3
Oppositional Defiant Disorder/Conduct Disorder	4
Other Mental Health Disorders	5
<i>Developmental Disabilities</i>	
Autism Spectrum Disorder (ASD – includes Autism, Asperger Syndrome, & Pervasive Developmental Disorder [PDD-NOS] not otherwise specified)	6
Developmentally Delayed/Global Delay	7
Down Syndrome/Other Genetic Developmental Disability	8
Fetal Alcohol Spectrum Disorder (FASD) or Alcohol-Related Neurodevelopmental Disorder (ARND)	9
Intellectual Delay (Mild or Moderate)	10
Rett’s Disorder, Childhood Disintegrative Disorder [CDD]	11
Learning disorders (reading, writing, math)	12
<i>Speech and Language Disorders</i>	
Apraxia	13
Cleft Palate/Lip	14

Cystic Fibrosis (CF)	29
Diabetes	30
Epilepsy/Seizures	31
Heart Problems/Stroke	32
Juvenile Rheumatoid Arthritis	33
Obesity	34
Phenylketonuria (PKU)/Other Metabolic	35
Tourette Syndrome	36
Other, not listed	37

ANSWERS ARE: YES, NO OR DON'T KNOW

4. Is the child receiving any school-based support(s), e.g. educational assistant, equipment?

5.

- a. Is child currently receiving further assessment?**
- b. Is child currently on a waitlist to receive further assessment?**
- c. Do you feel that this child needs further assessment?**

Section E: Additional Questions

1. attended an early intervention program

- Please specify the type of intervention and the problems it addresses if known.
- Includes speech/language therapy, a Head Start program, etc., or if child has had similar in-home services or parent attended a parenting program

2. Child has been in early learning and child care on a regular basis prior to kindergarten entry.

a. Centre-based, licensed, non-profit

Full-day **CENTRE-BASED** licensed programs are commonly referred to as daycare or child care, while part-day programs may be called preschools or nursery schools.

- Non-profit centres are often referred to as either ‘community-owned’, when operated by parents or non-profit organizations such as the YM/YWCA, or ‘publicly-owned’, when operated by a college, university, school board, or municipal or first nations government.

b. Centre-based, licensed, for-profit

- For-profit centres are owned and operated by individuals, groups of individuals or corporations.

c. Family child care, licensed

- Child care operated from the caregiver’s home (home-care), where the caregiver is licensed to provide this service (e.g., through an agency) if you know that the child was looked after in home-care but are unsure whether it was a licensed one, please mark “unlicensed”.

d. Other home-based, unlicensed, non-relative

- As above, except for the lack of license, and the caregiver was not related to the child.

e. Other home-based, relative

- Child was in the care of a grandparent, aunt/uncle, or another relative in the relative’s home.

f. Child’s home, non-relative

- Child looked after in own home by a nanny or a regular baby-sitter (exclude occasional evenings), who is unrelated to the child.

g. Child’s home, relative

- Child looked after in own home by a relative.

h. Other/Don't know

- Child has been in non-parental care, but either the description does not fit any of the above, or you are unsure what it was.

i. To the best of your knowledge, prior to the child's entry into Kindergarten, was this arrangement

Full-time	Part-time
If child has been in non-parental care at least 6 hours/day, 5 days a week	If child has been in non-parental care less than 6 hours every day, or not every working day of the week.

- If you know that the family's child care arrangements changed in the preschool years, please use your judgment to select the one that the child was in for the longest period of time.

3. attended other language or religion classes (specify if known)

- includes Sunday School, Hebrew classes etc.

4. attended an organized pre-school/nursery school (only if part-time, and if it was not the main child-care arrangement)

- Include only pre-school programs that:
 - do not provide main (full day) child care arrangements,
 - are not a part of a child care centre, and
 - do not involve an intervention/therapy/resource component.
- These may be weekly music/art classes, twice-weekly regular morning playgroup programs, etc.
