

Submission and Grading Standards

1 Submission Standards

Please be aware of the following assignment policy for section MATH110-003.

1. All pages must be numbered and stapled.
2. Questions must be submitted in order.
3. Full sentences must be used.
4. Each page is to contain a single column and the solution should read from top to bottom in a coherent manner.
5. Diagrams and pictures may be drawn by hand but must be clearly labelled.

Failure to meet these requirements will result in a 50% penalty.

2 Grading

Each question of the typed homework will be graded out of textbf10. Below is a rough translation of the grades:

- **10** A full, accurate and coherent solution was presented with possibly one or two minor arithmetic mistakes.
- **8** A mostly accurate solution was presented with a single key idea missing. The solution was logically coherent with possibly a couple of arithmetic mistakes.
- **6** A solution was present with some logical coherence. Multiple key ideas were missing or contains numerous arithmetic errors.
- **4** A partial solution was presented in a confusing manner. There were a multiple key ideas missing and contains numerous arithmetic errors.
- **2** A partial solution was presented in an incomprehensible and confusing manner. There were numerous arithmetic errors or contained few relevant ideas.
- **0** There was little or no attempt at a correct solution.

This is merely a rough translation of what the grades mean. Please look over the comments provide and take them on board for future assignments.
